PROFESSIONAL PROFILE

Computer Science and Engineering graduate from the University of Asia Pacific with a strong interest in data analysis, IT support, and software development. Skilled in Python, SQL, and data analysis for extracting insights and creating reports, with practical experience developing full-stack web applications using Django, HTML, CSS, JavaScript, and Bootstrap. Built an academic ride-scheduling and service management platform, demonstrating the ability to solve real-world problems through technology. Strong analytical, communication, and teamwork skills with a passion for learning and delivering impactful solutions.

EDUCATION

University of Asia Pacific <i>B.Sc. in Computer Science and Engineering</i>	Dhaka, Bangladesh <i>January, 2022 - December, 2025</i>
---	--

- **CGPA:** 3.78

Dhaka City College <i>Higher Secondary Certificate (HSC), Science — GPA 5.00</i>	Dhaka, Bangladesh <i>2020</i>
--	----------------------------------

B. N College <i>Secondary School Certificate (SSC), Science — GPA 5.00</i>	Dhaka, Bangladesh <i>2018</i>
--	----------------------------------

TECHNICAL SKILLS

Languages	Python, C, Java
Web Development	HTML, CSS, JavaScript, Bootstrap, Django
Core Areas	Data Structures, Algorithms, Software Development Basics, Problem Solving, OOP
IT Support	Desktop Assembly, Laptop Configuration, OS Installation, Driver Setup, Software Installation, Troubleshooting
Tools	GitHub, Microsoft Office, Canva, Camtasia, UniConverter
Languages	Bangla, English

PROJECTS

Ride Schedule <i>Ride Scheduling and Service Management System</i> Live GitHub	Academic Project
---	------------------

- Developed a ride scheduling system where riders can post daily, weekly, or monthly ride schedules and drivers can manage ride requests.
- Added service-based ride features including parcel and pharmacy-related rides, fare estimation through CostBot, ratings, and notifications.
- **Technologies Used:** Django, HTML, CSS, JavaScript, Bootstrap.

RESEARCH EXPERIENCE

XR Privacy Vulnerability Assessment via Deep Learning based Analysis of Head and Hand Motion Data <i>Undergraduate Thesis, Department of Computer Science and Engineering, University of Asia Pacific</i> View Thesis Report (PDF)	<i>Jan 2025 – Dec 2025</i>
---	----------------------------

- Led the model architecture design and performance evaluation for the research project, investigating privacy vulnerabilities in XR (Extended Reality) systems through analysis of head and hand motion telemetry data.

- Designed and implemented deep learning models (LSTM+GRU, DeepTCN, and EKYT-inspired architectures) to demonstrate that routine XR motion data can be exploited for user identification and attribute inference.
- Conducted comprehensive evaluation of model performance using accuracy and F1-score across multiple architectures, establishing a case study on the privacy risks of XR telemetry.
- Built a data preprocessing and multi-task learning pipeline in Python to jointly train models on identification and attribute-inference tasks.

PROFESSIONAL EXPERIENCE

Daffodil Computers Ltd.

Hardware and Software Intern

June 2025 – September 2025

Dhaka, Bangladesh

- Completed a three-month on-site internship at the BCS Computer City Branch, IDB Bhaban, Agargaon.
- Assembled desktop computers by integrating hardware components including motherboard, CPU, RAM, storage devices, and power supply.
- Configured laptops, installed Microsoft Windows, set up required drivers, and installed application software based on customer requirements.
- Performed system checks, basic troubleshooting, and customer-oriented technical support for hardware and software-related issues.
- Assisted senior technicians in diagnosing technical problems and preparing systems for customer delivery under deadline.

ACHIEVEMENTS & AWARDS

- **Vice Chancellor's Award**, Fall 2024.
- **Vice Chancellor's Award**, Spring 2025.
- **Dean's Award**, Fall 2022.
- **Dean's Award**, Spring 2024.

PARTICIPATION & COMPETITIONS

- **Champion, UAP Robo Expo 2.0 LFR Competition** — Team_Optimal.
- **Intra-University Programming Contest 1.0, UAP** — 2022.
- **EEE Tech Fest, UAP** — 2023.
- **KUET BitFest 2025** — UAP_Optimal.
- **UIU CSE Fest 2025** — UAP_Optimal.
- **National Robotics Championship 2025** — UAP_Optimal.

CERTIFICATIONS & TRAINING

- **Data Analyst with SQL & Python**
- **Data Analytics Internship** — Decode Labs
- **Internship Report** — Hardware and Software Intern, Daffodil Computers Ltd.

ADDITIONAL INFORMATION

- Strong communication, teamwork, time management, and customer service skills developed through internship and academic activities.
- Comfortable working in both academic project teams and practical IT service environments.
